#### AT THE CAPITOL

DULLNESS REIGNS AT THE HOUSE ON THE HILL TO-DAY.

THE DISTRICT'S INTERESTS NEGLECTED

SUGAR AND BINDING TWINE THE SNAG.

No Agreement Yet on These Items .- The Conference Report on the Rock Creek Park Bill Agreed To.

Matters were as dull at the Capitol to-day as they were interesting during the three weeks' struggle of the minority to prevent the perpetration of a rank partisan outrage by the majority. The House settled down to a humdrum consideration of the conference report on the Land Forfeiture bill. The Senate was dignified over its discussion of a proposition to buy nickel for the Navy Department.

Chairman Grout of the District Comchairman Grout of the District Committee made an effort to get three hours to morrow to consider unobjected to District business. Mr. Anderson of Kansas objected unless the Atkinson bill was excluded, while Mr. O'Neill of Pennsylvania objected unless it was included. Chairman Grout then tried to get an evening session to night, but the same objections by the same mem-bers were made. And so the business interests of the District suffer.

The conferrees on the Tariff bill met this morning, and were in session for three hours. At noon, when the conference adjourned, Major McKinley stated to a reporter that no agreement had been reached on sugar or binding twine. Senator Voorhees said, on coming from the committee room, that the conferrees were likely to be at work on the bill all day. the bill all day.

Most of the morning was spent by the conferrees going over the agreed schedules—that is, the schedules which have been agreed upon by the Repub-lican conferrees and which have not been submitted to the Democratic conferrees heretofore.

During the conference Senator Gibson and several members of the Louis-tana delegation appeared at the door of the Finance Committee room and asked that they be given a hearing on sugar, but the conferrees refused to hear them.

A member of the Louisiana delega-tion said that the conferrees had reached an understanding by which the bounty to be paid on sugar would be 2 cents a pound on all above 90 and 17 cents on all between 80 and 90.

The bill as it passed the House and Senate, provided for a duty of 2 cents a pound on all sugar above 80. About one half of the crop of sugar runs between 80 and 90, and the loss of one quarter of a cent a pound on this, the Louisiana members say, will be a ser-rious matter. The Louisiana members understand that while no positive agreement has been reached, there is an understanding that sugar is to be free up to No. 16. Dutch standard, and o carry five tenths of a cent duty above

The conference adjourned subject to the call of the chairman.

The Republican conferr this afternoon. Senator Aldrich said at 2 o'clock, that the full conference had agreed to every item in the bill except sugar and binding twine. He thought an agreement on those items would be reached this afternoon, and the bill ald be reported to the House at 13 o'cleck to morrow.

The House this morning took up the conference report on the Land For-feiture bill. Payson of Illinois, in charge of the report, made a brief explanation of its provisions.

#### ANNUAL REPORTS

MADE BY SUBORDINATE OFFICIALS TO THE COMMISSIONERS.

Major Moore Furnishes the Estimates Necessary to Run the Police, and Chief Parris Makes Recommendations

Chief Engineer Joseph Parris has submitted his annual report for the fiscal year ending June 30, 1890, to the Commissioners. The department has eight engine-houses and two truckhouses, all in good condition with the exception of Nos. 2 and 4. He asks for an appropriation of

\$12,000 to creet a new engine-house. The members of the department have received no increase of pay, except have received no increase of pay, except \$5 per month to hostlers and privates, since its organization. They are re-quired to live in close proximity to the engine or truck houses to which they are assigned to duty, and the advance in real estate has made it hard for them to have for their families anything but the object necessities.

se plainest necessities.
There are in the department two old style engines that could be profitably exchanged for new ones, and Chief exchanged for new ones, and Chier Parris recommends an appropriation of \$8,000 for the purpose of effecting an exchange. He recommends the pur-chase of a site for the erection of a new engine house north of Florida avenue, between Connecticut avenue and Fourteenth street, and that four additional waterings he provided four additional watchmen be provided for in addition to the six already employed; also the appointment of two additional privates to each engine com-pany and one to each truck company.

Chief Parris' statement in regard to the relief fund shows receipts \$1,883.42; pald for pensions, \$1,693.50; cash balance on hand, \$191.92; bonds on hand June 30, 1890, \$2,250.

During the year there were fifty applications for positions, twenty-pine. plications for positions, twenty-nine were reported as qualified by the board of surgeons, and ten appointments were

The report of the District veterinarian, C. B. Robinson, refers to a disease sometimes contracted by the horses known as osteo-porosis, or hig head, and says that forty-five horses of the department have been sent to the hospital for treatment. The general condi-tion of the horses is good. He recommends that the pay for the service of examining and purchasing horses be made not less than \$1,000 per annum. Fire Marshal Drew inclosed his report

It is expected that Mr. Timothy Healy, who is to defend the secused, will have no difficulty in exposing faral defects in the proceedings apon which his clients are deprived of their liberty.

Right Hon, Sir George Otto Trevelyan, formerly of Mr. Gladstone's Cabinet, is making a tour of Skye and incidentally making speeches to the unfortunate dwellers in that beautiful and fertile isle. These addresses, which are not

calculated to add to the peace of mind of the Conservatives, are enthusiasti-cally received by the people. Trevelyan warmly advocates the establishment of a peasant proprietary as the only just and feasible remedy for the distress which exists among the crofters, who have been forced out of their landholdings by the great proprietors. The speaker's occasional references to Right Hon. Joseph Chamberlain never fall to evoke hisses from his auditors.

#### "BUCK" EWING TALKS.

Why the New York Club Did Not Win the Pennant, BUFFALO, N. Y., Sept. 25.—In an interview last night Buck Ewing of the New York Glants attributed the loss of the pennant by his club to his pitchers.

Keefe's injury, he said, had made a vast difference. When the champion-ship season is over the New Yorks and Bostons will make an exhibition tour of the New England States. With regard to the purchase of the Cincinnati Club, Ewing said there was nothing definite yet, but that the Players' League is after that club. The Players' League has secured the best material in the Brooklyn National Club, he said, and that practically kills the club.
With it out, and Cincinnati also, the

National League can't last long. Asked whose place Cincinnati would take, Ewing said he did not know yet, but it would not be Buffalo. Buffalo, he said, is a better ball town than Pittsburg, Cleveland or Brooklyn, and

the receipts prove it.
"We cannot make a ten-club circuit. and something will have to drop, but I shall not vote to drop Buffalo. To my mind Brooklyn is the weakest point. Give Buffalo a team that can win half its games at home and it is a good town. If a change is made anywhere the pooror sentiment will not out any figure in such a question."

#### DEATH CAUSED BY MALPRACTICE.

A Murder Mystery that the Grave Did Not Hide,

Last Thursday night a young colored woman, Fanny Bishop, died and was burled in Columbia Harmony Cemetery, the certificate of death being furnished by Dr. John A. Bushnell, who gave the cause as congestive chills.

Information reaches the police that there were suspicious circumstances connected with the death of the woman, and an investignation resulted. The body was disinterred yesterday by Cor-oner Patterson, and a brief exemination sufficed to show that death was caused

by malpractice.
Accordingly warrants were issued for the arrest of fir. Bushnell and Robert L. Warlog, who it was alleged was the girl's lover. An inquest was held at the Second Precinct station last night, and after listening to the testimony the jury returned a verdict to the effect that the girl had come to her death at the hands of parties unknown.
